

FIRST **EDT** LEARNING CENTER

Welcome to EDT School!!

Welcome to First EDT Learning Center. We provide quality education with top-caliber Filipino and Native teachers. We have well-trained professional educators who teach students English language in the most effective and efficient ways. At EDT, students improve their English language skills effectively with proven education system, educational know-hows, specified courses developed by EDT researchers and well-prepared teachers . One-on-one class provides one instructor for each student, making it possible to

have a customized class. Statistically, a one-on-one class significantly increases the English ability of learners. The importance of the role of Native Speakers is evident. Non-native English instructors are excellent at the precision of grammar, teaching experience and know-how. Learners who want intermediary or above levels of English will receive in-depth teaching through native speakers covering pronunciation, practical expressions and nuances, and various areas of English.

Benefits of Subic

Subic bay, the largest US Navy station

Subic was the site of the largest overseas military navy station for the United States for almost a century. Naturally people who were previously employed by the US Navy tend to possess a high degree of proficiency in English as such.

For 94 years, this former pride of the U.S. Navy, with its long status as the largest naval installation outside the United States is now a recreational, entertainment and food wonderland.

The safest area in the Philippines

In addition, Subic maintains one of the strictest police and traffic safety programs in the entire country; as a result, Subic enjoys one of the lowest crime rates in all the Philippines.

Easy access & Accessible location

Unlike US, Canada, Australia and other western countries, the Philippines does not ask you to prepare lots of documents and papers as visa, acceptance letter and so on. The only things needed are your passport and flight tickets. Once you enter, you may simply extend your visa until the day you want to stay. Also, Subic is located less than 1 hour distance from Subic & Clark International airports. So, it is very easy to travel to every part of the Philippines by air.

Benefits of EDT school

Native Learning System (NLS)

We do not focus on grammar. The system is designed to assist students in learning English as the natives do. This is an answer to every learner's desire to use the language faster, more easily and more gratifyingly. The program starts with LISTENING, the core skill in learning English like the natives do. It goes to SPEAKING, READING, WRITING and IMMERSION to commence the program. Through the various activities, students are going to learn the necessary skills for the conversation very naturally and effortlessly.

COMMUNICATION CENTERED

We are not speaking centered as other schools. We consider Listening and Comprehension as the main contents of Communication. CL in EDT level system (CL0~CL6) means Communication Level.

VARIOUS NATIONALITIES

We have students from Korea, Japan, Russia and Taiwan as of now. We expect ones from Thailand and Vietnam soon.

TOP CALIBER TEACHERS

Teachers at EDT are hired after passing various tests like the written exam, demo class, interview and trainings. Once hired, regular exams such as TOEIC, TOEFL, IELTS etc. are given monthly. They are also given TAR (Teacher Assessment Report), feedbacks from students and regular trainings by Native speakers regarding pronunciation, intonation, teaching skills, western culture and so on to give the best classes to our students.

SMALL GROUP CLASS & FAMILY-LIKE ATMOSPHERE

At EDT, up to 5 students only can attend in a group class. The school is not so crowded since the capacity is not so big. So it is easy to take care of each student's needs.

VARIOUS ACTIVITIES

Learning English with only textbooks has its limit. At EDT, students learn the language and feel the cultures more through various activities.
